

Dr. Vaccaro Scholarship Fund

This fund was established in memory of Dr. Michael Vaccaro, a great friend of the Montgomery Blair High School Magnet Program. Dr. Vaccaro helped build links with the scientific community in the early years of the program allowing our students to have research internships off campus at the National Institutes of Health, National Institute of Standards and Technology, the University of Maryland, and many other outstanding venues.

Annually, this scholarship is awarded to one or more senior(s) who have completed an outstanding senior research project and been nominated by the magnet faculty. The award is presented at the Senior Research Project Convention when parents, mentors, and faculty have the opportunity to view the students' research boards.
